Airman Helps To Charter Plane For Yule At Home

Cpl. Meyer Instrumental In Arranging Flight From France

Cpl. Richard G. Meyer, 21, 3788 F, and 60 fellow Air Force GI's from France are home for Christmas. But only after meeting a series of last-minute deadlines that only a Hollywood scriptwriter could dream up.

Home with his parents, Mr. and Mrs. George H. Meyer, and his brother, 13-year-old Walter, the Lincoln High graduate could relax after bucking red tape, a language barrier and beating the clock.

It all began this way:

Back in Chaumont, France, where Richard is stationed with the 48th Fighter-Bomber Wing, the men in his wing heard that another group were permitted to charter two planes for a trip back home for Christmas.

Officers Failed

This was just before payday, Nov. 1. An officer was sent to Air France, French commercial airline in Paris, to make arrangements for a plane if possible. He failed.

But Richard and another airman, Cpl. Winfred M. McElroy of Hearne, Tex., wouldn't take "no" for an answer. Richard and his friend appointed themselves a committee-of-two to start the ball rolling.

First, they contacted the airline in Paris. Yes, they could charter a plane. Then they were called and told that there would be no plane.

'Hopped Train'

"It looked like the situation demanded the personal approach," Richard continued, "so Mac and I hopped a train for Paris."

Airline officials apologized for the mix-up, according to the former University of Nebraska student, and said they would have a plane for the 10th of December. With a little fast talk, the two airmen got a promise for Dec. 6th.

It was Monday, Nov. 10 and Meyer and McElroy had to raise roughly one-fourth of \$21,000 rental fee; a mere \$5,250, and in 36 hours. Back to the base they hurried.

'Sweated It Out'

"We really sweated it out," he breathed wearily, "but with the help of another man we collected the money—but not all of the whole 61 of us were signed up."

Back in Paris, the money deposited, the promoters were handed a Saturday Nov. 15 deadline on which the balance had to be deposited—and two contracts for the two-way trip to the U.S.

The contracts were written in French. Not one deadline, but actually two. Now the base legal department would have to translate the contracts. It was accomplished—"we sweated some more"—but other troubles had cropped up. They were short two passengers. These were found at the last minute.

With the money, contracts and passenger list in hand, the two hurried to the Chaumont train depot at 7:30 p.m. the 15th. They arrived at the airlines office at midnight—the deadline.

Richard landed in New York Sunday morning and was met at the Omaha airport by his father, who is county adult probation officer, late Sunday night. He has to be back in New York by Jan. 4.

'City Far Enough South For Robins If Food On Hand'

Although robins are generally believed to migrate south for winter months, some usually remain in Lincoln.

So explained Dr. Henry Baumgarten, president of the University Place Bird Club Monday, when referring to several flocks seen recently in Lincoln.

Although a large flock is somewhat unusual here, Dr. Baumgarten said that the birds probably just had not gotten farther south and were in town seeking food. He described the birds as a hardy group which will remain in cold weather so long as food is available.

From 30 to 40 robins remain at Pioneer's Park each year, he pointed out.

Aboard USS Helena—Like Team Discusses U.S. Policy

Korean War Believed Main Session Topic

By DON WHITEHEAD

ABOARD USS HELENA, En Route to Hawaii (P)—The direction of U. S. foreign and domestic policies after next Jan. 20 was under formal consideration by President-elect Dwight Eisenhower and eight key advisors Monday as the cruiser Helena knifed through sunny seas toward Pearl Harbor.

The secretaries of state, treasury, interior and the attorney general of the incoming Republican administration were present. The Korean War was believed the main subject of discussion, but whatever decisions reached will not be announced.

Eisenhower's press secretary, James C. Hagerty, made clear that even the subjects discussed would not be disclosed, at this time and probably not until after the new administration takes office.

Enlarged War

However, one source close to Eisenhower squelched recurring reports that the general favored enlarging the Korean War.

"Nothing is definite yet," the source said. Eisenhower made clear at a press conference before leaving Korea that while "much will be done" to improve the Allied position, he did not want to enlarge the conflict.

Monday, Hagerty said flatly "We will make no statement on Korea." The Helena was due to complete its 3,300-mile trip from Guam at 9 a.m. Thursday, Hawaiian time, 1 p.m. (CST). Eisenhower and his staff are expected to continue their meetings at Pearl Harbor for at least two days.

Hagerty said he could not say what Eisenhower's itinerary would be after he left the islands. The high level talks began in earnest only two hours after a helicopter brought Secretary of State-designate John Foster Dulles aboard from Wake Island Sunday. He had flown there from the United States under security wraps.

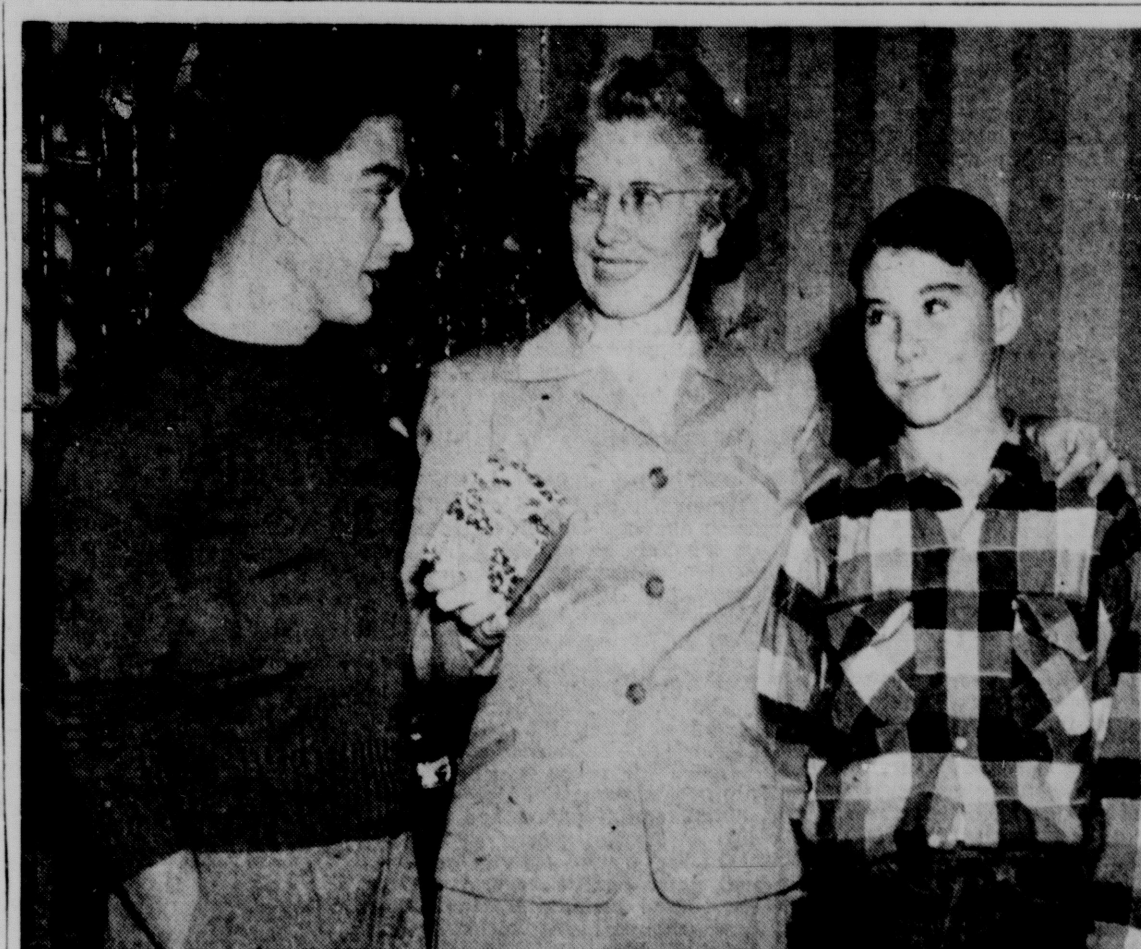

Car Pool Proving 'Unsatisfactory'

The City Council has expressed dissatisfaction with the existing partial car pool and is now leaning toward establishment of a pool of all city vehicles.

The partial pool was tried on more of an experimental basis with only a small number of cars involved. The plan mainly called for the sharing of certain cars by several individuals.

In the case of the city assessor, however, the plans has cost the city money, according to Finance Director Theo Berg. The assessor has lost valuable time, said Berg, and had to rent a car when he was unable to get the car he was supposedly sharing with another city employee.

The Council temporarily approved the purchase of a used car for the assessor with final approval pending a further recommendation from the city's car pool committee.

HOME FOR CHRISTMAS—Decked out in civilian clothes, Cpl. Richard G. Meyer (left), relaxes at home with his mother, Mrs. George H. Meyer, and brother Walter, at 3788 F after a hastily-engineered flight home for Christmas. (Star Staff Photo.)

Legion Fears 'Infiltration' Of Local Schools

The issue of Communist infiltration in schools and libraries flared at a meeting of the American Legion Post 3 with a charge that "a certain professor in the University of Nebraska uses a certain textbook and that 'students can't swallow the stuff.'"

The charge was made Monday night by chairman of the Un-American Activities Committee of the Department of Nebraska American Legion, Joe Vinardi of Omaha. Vinardi is also a recent appointee to the national Legion Un-American Activities Committee.

He said the tip came from anonymous phone calls to Legion headquarters in Lincoln and will be investigated by his committee.

But Vinardi warned that he wanted no part of any "ghost or witch hunt" and said nothing as yet could be proved.

Vinardi, a guest of the local post, recommended that the Lincoln Legion group "initiate a program in the school system in this city to require a loyalty oath."

Post Commander Mary Ellen Lorton said local Un-American Committee Chairman Jim Harding will follow up the recommendation.

"Every teacher in the public schools should be very pleased to display their Americanism by signing a loyalty oath," Vinardi said.

Fred Brumlage of Junction City Kan., former vice-commander of the American Legion, sparked the heated discussion of Communism when he warned the meeting that Communists are in Nebraska and Kansas.

Brumlage declared that Communists were found in "our school system in Kansas."

Brumlage said the Americanism committee in the state might find something that would surprise them if they inspected the school books in Nebraska.

"If you could find good Communist literature and really fight it, your membership will really increase," Vinardi declared after the membership troubles of the local post were dissected by Brumlage.

The American Legion really has a chance to shine if this becomes a fight, Vinardi added.

City Accepts Offer Of 16th, K Parking Lot

The City Council has accepted an offer from E. J. Faulkner for use by legislators and Sunday churchgoers of a lot at 16th and K, owned by the Woodman Accident Company, for parking purposes.

Liquor Board Explains Rule

The State Liquor Commission Monday issued a statement giving reasons for its so-called "price-fixing" rule to counter criticism of that rule. Story on Page 5.

Omaha Market Leads World For 11 Months

OMAHA (P)—Omaha was the world's largest livestock market in salable receipts through the first 11 months of 1952.

But whether or not the meat industry here can hold its lead over the long-time champion, Chicago, for the entire year is another question.

Harry Coffey, president of the Union Stock Yards Company, said the contest will be "nip and tuck—likely to go to the last day of the year."

Council Approval Of Bus Fare Hikes To Be Announced

The City Council, through its bus committee, will give approval this week to the State Railway Commission of the Lincoln City Lines proposed bus fare increase.

The Commission has held its hearing on the requested 15 cents or four tokens for 50 cents fare, but has taken no action in the matter. The City Council, up to now, has declined to take sides in the issue.

The Council was advised Monday, however, by Deputy City Attorney John H. Comstock that the commission would like to have the Council's views.

The Council obliged by instructing City Attorney C. Russell Mattson and Welfare and Safety Director Ray Osborn to present the commission with the bus committee's recommendations.

Osborn, who heads the committee jointly with Councilwoman Mrs. Fern Hubbard Orme, said the committee "feels the company is entitled to this increase. As near as we can tell, City Lines is making only about 3 to 4 percent on its investment."

"We believe the increase should be granted and that, in turn, service can be improved."

Cleaning Of Lake At 16th, Harrison Ordered

A contract has been awarded by the City Council to the Dolson Brothers Construction Company for cleaning and deepening of the 16th and Harrison lake at a cost of \$1,440.

Three Forces Emphasized By Gen. Brougher

Young Americans must be given something to believe in, something to fight for, if the question "Why?" is to be answered, the Lincoln Dinner Club learned Monday night from a retired Army officer and former prisoner of war.

Brig. Gen. William E. Brougher, speaking at the Cornhusker Hotel, told the group there are three things that must be valiantly defended. These, he said, are freedom, democracy and Christianity.

"Our leaders in the armed forces and industry," continued the World War II leader of the 11th Division on the Philippines, "have trained his mind and his hands. They have not answered young America's question, 'Why?'"

As a prisoner of war held by the Japanese for three and a half years, the Mississippian said he learned personally when the "testing time" arrived.

"It's not a question of what or how much the young American knows," Gen. Brougher remarked, "nor is it a question of whether he will fight. No, it's something inside him—it's what he believes."

Americans, said the general who received his Army commission in 1911, pride themselves in being men of action—men who are practical and down-to-earth. This, he said, is not enough.

"While we are this—and rightly so," he asserted, "we have failed to emphasize the intangibles. The enemy makes fanatics of his men while we, who have the 'real goods,' fail to give our young men something to believe in."

Gen. Brougher was introduced by Max Meyer, club president. On Tuesday the general will speak to the Lincoln Rotary Club, hosts to the Kiwanis, Sertoma and Lions Clubs.

He will also talk before student assemblies at Northeast High School and Irving Junior High.

Harry Simon New Head Of Southwest Community Center

Harry Simon was named president of the Southwest Community Center at an annual meeting held Monday night.

Other officers named include: O. W. Christensen, vice president; Mrs. Ernest Selmeier, secretary; and A. W. Peck, corresponding secretary.

Named directors were: Simon, Miss Larsen, Mrs. Peck, Herbert Henderson, Mrs. John Waybright and Paul Lewer.

Coast Guard Says 7,000 Ton Yorkmar May Break In Storm

Thirty-Seven Men Reported Aboard Listing Freighter

SEATTLE, Wash. (INS)—The 7000-ton liberty ship Yorkmar was driven aground near the entrance to Grays Harbor Monday with 37 men aboard.

The Yorkmar, bound from San Francisco to Grays Harbor, had no cargo and was blown about by the wind and pounding seas.

So hard aground was the ship that the Coast Guard estimated it was about 100 yards from shore. The crew members can wade ashore at low tide if necessary, Coast Guardsmen said.

The scene is not far from Aberdeen and Hoquiam, Wash., and about 75 miles southwest of Seattle.

Capt. Oscar Kullbom of Portland, Ore., said he and the crew members will stay aboard if possible.

Two Coast Guard cutters were standing by. They reported the ship in "good" condition unless swells from a week-end storm suddenly become worse, in which case the craft may break up under pounding seas. The Weather Bureau forecast southerly winds 25 to 45 miles an hour as the strongest in the next 24 hours.

The salvage ship, Salvage Chief, was on its way to the scene and expected to arrive early Tuesday. It will try to re-float the ship at high tide Tuesday.

A Coast Guard motor lifeboat, dispatched earlier from nearby Westport, was turned back by high seas breaking outboard from the freighter.

Launching of lifeboats under such conditions was termed by the Coast Guard to be a "very dangerous procedure."

Business Zone On Adams OK'd

The City Council has approved the application of Don Dixon for local business zoning on Adams between 59th and 60th and denied the application of Strauss Bros. for the same zoning several blocks away.

The Council thus ended one of the most controversial zoning matters heard before it in recent months. The two applications had been protested by the Lincoln Board of Education and the Dixon request protested by most of the surrounding property owners.

Having heard testimony on the applications several times previously, the Council took no time for discussion of its own. Only Major Victor E. Anderson and Councilwoman Mrs. Fern Hubbard Orme voted against the Dixon application.

Strauss Bros. had asked for local business between 61st and 63rd a block north of Adams. They had also offered to donate ground for a church on Adams between 61st and 63rd if the local business were approved.

HARD AGROUND, CREW SAFE—The 7,000-ton Liberty ship Yorkmar lies hard aground about 400 yards from nearby Grays Harbor north jetty (background) late Monday. Capt. Oscar Kullbom, Portland, Ore., said none of the 37 crewmen was hurt and the ship not in danger of breaking up. The freighter was en route empty from San Francisco to Grays Harbor. (AP Wirephoto Monday Night.)

City Hall Lawn Possible Bryan Statue Location

Original Agreement On Capitol Site Reviewed At Meeting Of Commission

Members of the Bryan Memorial Commission agreed at a meeting Monday to explore the availability of the open space east of the City Hall as a suitable place for locating the W. J. Bryan statue, now placed on the north side of the State Capitol.

In a report signed by Sterling F. Mutz, elected chairman of the commission to succeed the late W. Bruce Shurtliff, and Harold Requisite, secretary-treasurer, it was also stated that invitations have been received to place the statue at Bryan Memorial Hospital, at Illinois College at Jacksonville, Ill., at William Jennings Bryan University, Dayton, Tenn., and inquiry has been received about placing the statue at Salem, Ill., Bryan's birthplace.

The Commission had hoped that recently being requested "to consider placing the statue... at a location other than the walkway leading to the north or main entrance" to the Capitol, the report pointed out that shortly after it was created in 1941, the Commission, together with Gov. Griswold and W. L. Younk, then architect of the Capitol, met and agreed upon the present location.

"Blue prints were made by the architect and highway department engineers providing for the exact location and a deep concrete footing," the report adds.

The Commission added: "The erection of the statue, the architectural objections would not seem so serious and that the Bryan statue would blend into the architectural plan at least as well as the Abraham Lincoln statue on the west walkway to the Capitol."

In a letter to Rudolph Evans, the sculptor, Dr. Carpenter said: "We have just been looking at your splendid Bryan here in Lincoln. All three of us agree that the placing, pedestal, and general effect could not be improved upon. So, we seemed to me absolutely right May I send you my most cordial congratulations."

The Commission's report adds that when plans to dedicate the statue were announced "there was a protest from people who felt that placing the statue on the north walkway interfered with the architectural simplicity and symmetry of our famous Capitol building."

"The commitment made by ex-Governor Griswold was set aside and an agreement in writing made between Governor Val Peterson, who is custodian of the State Capitol by virtue of his office, and the Bryan Memorial Commission."

"... that the Commission would erect and dedicate the statue on the footing then installed. But the report adds that two alternative locations, in front of the then projected State Historical Building, and the projected 15th Street parkway or plaza north of the Capitol, were provided in the agreement."

But the Commission reports, the first alternative has been eliminated by the action of the State Historical Society trustees who said no statues would be placed on its building site, and the second alternative is out, at least at present, because the plaza project is undeveloped.

Today's Chuckle
Free enterprise gives everybody a chance to go to the top. The trouble is that too often we depend too much on the free part of it and not enough on the enterprise.

A Really New Milk Bottle

Meadow Gold's new Plastic Coated milk carton allows no particles in the milk, is leakproof, completely sanitary.—Adv.

GOBLINS AND DRAGONS, LOOK AT THEM—That might be what little Gerald Wickersham, one of the little polio patients who viewed the parade (right), might be thinking as the rubber balloon characters move past his window. In the center, towed by Beatrice boys, is a giant rubber dragon, and at left is a goblin—or something.

Anyway the children loved it. The balloon parade, held in Beatrice Monday night, was sponsored by the Beatrice Chamber of Commerce as a kick-off for the holiday season. (Star Staff Photos.)

Arrests Of Czechs Continue

Five Top Leaders
Said Being Purged

BELGRADE, Yugoslavia (AP)—Belgrade radio reported Monday a new wave of arrests in Czechoslovakia and said five top Communist leaders were among those being purged on orders from Moscow.

The radio quoted the official Yugoslav news agency Tanjug as the source of its report but gave no indication how the information was received. There was no direct word from Prague, the Czech capital.

The purge list, as broadcast, included such noted figures as Ogen. Ludwig Svoboda, first postwar minister of defense; Antonin Gregor, former minister of foreign trade; Eugene Erban, minister of labor and social security; Augustin Kliment, minister of heavy machinery; Vladimir Kopriva, former minister of national security.

The shadow of a new purge has hovered over Czechoslovakia since the recent big Prague treason trial in which Rudolf Slansky, former boss of the Czech Communist party, was condemned to hang with 19 others. The executions were carried out last week.

The names suggest that one possible reason for the Czech arrests is to find scapegoats for low production of consumer goods, especially manufactured items demanded by Russia. The Czechs have fallen down badly in their five-year plan, notably in mining and heavy metal works.

WSB Negotiations—

New Wage Board Seen

Fowler And Putnam
Seek Business Help

WASHINGTON (INS)—Top defense officials Monday announced they expect to reestablish the Wage Stabilization Board which collapsed with the resignation Saturday of all its industry members.

Defense Mobilizer Fowler and Economic Stabilizer Putnam said they are trying to obtain the help of business groups in having replacements designated for the seven industry members who resigned.

The members walked out in protest against President Truman's order overruling the board and approving a \$1.90 per day wage increase for the soft coal miners.

Putnam said that he has conferred with the Commerce Department Business Advisory Council about designating replacements for the industry members who have resigned, and that the Council is considering the matter. He said he expects to recommend shortly to the White House new appointees to succeed the resigned members.

Cathedral Runnerup At Creighton Speech Meet

OMAHA (AP)—Omaha St. Mary's Monday won the third annual Creighton Prep Invitational Speech Tournament.

St. Mary's had 439 points to 337 for runnerup Lincoln Cathedral. Dick Mobley of Cathedral was the only double individual winner. He won newscasting and extemporaneous speaking divisions. Bill Manke of Cathedral won the original oratory division and Marilyn Breitfelder of Cathedral prepared oratory.

While Cathedral won four of the seven divisions, St. Mary's took up the slack with seconds and thirds.

They are shown with Mrs. Clifford Hicks, Lincoln, who serves another year as president, and Richard Johnson, Lincoln, secretary-treasurer. (Star Photo.)

Testimony 'Varied' At Hearing On Grand Island Liquor License

Everything from the amount of work that has been laid in Grand Island to a controversy over supposedly tainted metwurst and the number of local citizens it made ill was detailed at a re-hearing on the beer license application of Herman Junglauss, Grand Island grocer, before the state liquor commission Monday.

The city asked a re-hearing after their denial of a license to Junglauss was overruled. At the original hearing on the appeal of Junglauss from the city denial approved by the city council.

The city council gave informal approval to the plan after Mayor Victor E. Anderson explained that the county felt it could not handle all the viaduct chores alone.

The viaduct has been a cooperative deal since the present plan was adopted. The city purposely took the section of O involved out of the city limits so the county could declare the area a secondary highway and make it eligible for use of secondary road funds in building the viaduct.

The city has consistently claimed it was not trying to shirk its duty but that the secondary funds offered the only way to get the structure built. The county will hold a public hearing Dec. 16 in regards to declaring the area a secondary road.

The councilmen told of looking up records showing that an income tax lien had been filed on Junglauss by the federal government. Junglauss later testified that he had acted on advice of his auditor and that the government has not contacted him for payment in over two years.

The councilmen also told of the arrest of Junglauss on a charge of selling metwurst (a type of summer sausage) after sale had been banned by the city health department. They admitted the case was dismissed in court on a technicality.

The councilmen said that Junglauss keeps his store open until midnight and later on that it would be hard to police. Grimmer brought forth admissions that three other grocers obtained beer licenses and that two are farther from the business district than Junglauss.

The commission took the question under advisement.

The councilmen said that Junglauss keeps his store open until midnight and later on that it would be hard to police. Grimmer brought forth admissions that three other grocers obtained beer licenses and that two are farther from the business district than Junglauss.

Ben-Zvi Israel's President

... To Succeed Weizmann

JERUSALEM (AP)—The Israeli Knesset parliament Monday elected Itzhak Ben-Zvi, 68-year-old leader of the Labor party to be this young nation's second president. He will be sworn in Wednesday for a five-year term.

Ben-Zvi, like his predecessor, Dr. Chaim Weizmann, who died last month, spent a lifetime laying the framework of Israel as the national home of Jews.

The President-elect came here in 1907 after pogroms in Russia, where he was born in 1884, spurred his ambition to work with Weizmann in moulding the nation.

For nearly 30 years, before independence was won, Ben-Zvi was the principal spokesman for Palestine Jewry on the spot while Weizmann appealed for support abroad.

Ben-Zvi is a scholar, noted for his research in archaeology.

He insisted that it should be a prerogative of local city officials to decide if they thought an applicant should be granted a license but refused under questioning to say that Junglauss was not of good character and reputation in the community.

Monday the city was represented by Councilmen John C. Martin, Oscar W. Johnson and Herbert Winkhoff together with the city attorney. None would state specifically that Junglauss was not of "good character and reputation in the community."

The nearest approach was Johnson who under sharp questioning by Attorney Harry Grimmer, a former mayor of Grand Island, snapped that Junglauss was "in that category" and "not qualified to be entrusted with sale of liquor and beer." He admitted that he was trying to evade a direct answer.

The councilmen told of looking up records showing that an income tax lien had been filed on Junglauss by the federal government. Junglauss later testified that he had acted on advice of his auditor and that the government has not contacted him for payment in over two years.

The councilmen also told of the arrest of Junglauss on a charge of selling metwurst (a type of summer sausage) after sale had been banned by the city health department. They admitted the case was dismissed in court on a technicality.

The councilmen said that Junglauss keeps his store open until midnight and later on that it would be hard to police. Grimmer brought forth admissions that three other grocers obtained beer licenses and that two are farther from the business district than Junglauss.

Fire Station Plan Ready, But Funds Are \$4,000 Short

Plans and specifications for the proposed new Piedmont fire station will be ready in about 10 days but there is a \$4,000 shortage of funds to erect the structure, according to Welfare and Safety Director Ray Osborn.

Osborn has advised the City Council of the shortage and suggested the money be taken from a fund set up to hire more firemen. With the Huskerville fire station now gone, Osborn said, it leaves the city enough extra firemen that none have to be hired now.

There was \$57,000 set up in this year's budget for the new station. The station had earlier been estimated to cost about \$60,000.

Ground War Quiet; MIG Is Downed

From Press Dispatches

SEOUL (Tuesday)—American Sabrejet pilots over North Korea outmaneuvered Red MIG-15 jets Monday to score a single victory and their total bag to eight in the second straight day of aerial combat.

Two Allied pilots shared in the kill when they forced an MIG to crash during a battle over Sinuiju on the Yalu River.

Allied warplanes smashed at Communist supply roads and vehicles Monday night and early Tuesday in the heaviest blow in two weeks against arteries to the Red front lines.

The U. S. Fifth Air Force reported at least 155 trucks destroyed. Twin-engine B26s destroyed the roads leading south from Pyongyang, the Korean Red capital, and Sandung and Yangdok, on the East Coast.

On the ground activity continued quiet despite several futile, short-lived assaults by the Chinese against Pinpoint Hill on Sniper Ridge.

Credit for destruction of the Red jet in Monday's fighting went to Maj. Edwin L. Heller of Wynnewood, Pa., and 1st Lt. Dean H. Woodward of Rockford, Ill.

The Reds mounted platoon-sized probes in the Sniper Ridge sector early in the day but were thrown back after brief fights.

'Gasoline Raid' Halted
By Operator Of Station

Seven boys went on a "gasoline raid" but were stopped in their efforts by an alert service station operator.

Fred Lauterbach, owner of the Centerville Service Station, saw the seven young men siphoning gas from a milk truck parked in front of his station at 4 a.m. Saturday, he told Chief Deputy Les Hasson Monday.

Lauterbach hopped into his car, gave chase, and received money from the students to pay for the gas and the damage done to the truck.

No complaint was filed by the station owner.

British Lift Television Ban On Coronation

LONDON (AP)—Britain's Coronation Committee gave in to nation-wide protests Monday and lifted its ban on televising the actual crowning of Queen Elizabeth II next June.

The decision throws open the doors of historic Westminster Abbey to TV cameras and permits history's first television coverage of a coronation.

Only the most religious part of the coronation—the anointing, the communion prayers and the administration of the sacrament—will remain barred to TV.

The Coronation Committee announced also that the Queen's coronation will be re-routed and stretched out to give added thousands more chance to see.

Rail Commission Seeking \$189,128 Increase In Budget

Added employees and added workers salaries accounted for the bulk of the increase from \$410,782 to \$579,860 asked by the state railway commission at budget hearings Monday.

Leroy Sieckmeyer, commission accountant, said nine added employees are planned of which four have been hired. One would be an administrative assistant to the commission, a new position.

He said that some department heads are eligible for retirement and that it is planned to name assistants to them who could take over if they retired.

The military department recommended a reduction in the amount of tax funds asked from \$533,299 to \$495,838. The request does not include their share of the 1.1 mill and building levy.

Cronn Is Head Of Nurserymen AT MILLER'S

Madisonite Selected By State Group

Duard Cronn of Madison was named president of the Nebraska Association of Nurserymen at the opening day Monday of the group's two-day meeting here. Retiring president is Howard Edmondson of Arlington.

E. O. Erickson Jr., of Kearney was elected vice president and Charles W. Andrews of Omaha, succeeded himself as secretary-treasurer.

During their business meeting, the nurserymen referred to a committee for study and recommendations the implementation of a state program for the beautification of cities and highways.

The state phase would be a part of the "Plant America" program sponsored by the National Association of Nurserymen.

Nursery Pests

Dr. Roscoe Hill of the University of Nebraska agricultural entomologist said the principal pests plaguing nursery stock during the past year were the red spider and the white grub.

In addition to trees, flowers, and shrubbery, the red spider mite was found on field crops, such as corn. The white grub is a menace to yards.

In discussing the use of several new miticides and chlordane in fighting grubs, he warned of the dangers from chemical poisoning and stressed proper use.

Another speaker was John Reeves, representative of the Miller Chemical Company of Omaha.

Nebraska Casualty Toll Rises to 206 Killed

Nebraska's Korean War casualty toll now stands at 206 killed, 697 wounded and 93 missing. State Veterans Affairs Director Louis Eby received notice that five were killed and nine wounded in November.

TODAY'S CALENDAR

Resources Division Studying Ways To Help Small Towns

State Resources Division Chief C. V. Price said that the division is paying particular attention to the problems of smaller communities in a study now under way.

"The small towns figure nothing is being done for them because most of the industries attracted to the state settle in larger places—over 5,000 population," Price explained.

"We try to point out that what ever benefits the state as a whole benefits them," he continued.

The trouble, Price said, is that an industry of the type which smaller communities could accommodate—industries which employ 20 or 30 persons—are established in small towns already and are not moving.

'Grow Up'

The best chance for a small community is for something that starts there to "grow up," he added.

Recreational facilities and educational advantages are often the points considered first by an executive thinking of moving his industry into a new community.

Price sees co-operation of communities within a county as a possible solution of this problem. Most of the industries moving into Nebraska are branches of plants already established elsewhere, he pointed out.

Palestine Compromise Plan Presented At U.N.

UNITED NATIONS, N. Y. (AP)—An eight-power compromise resolution designed to bring Arabs and Jews into direct negotiation for final settlement of the explosive Palestine question was presented to the U.N. Special Political Committee Monday.

The Palestine War of 1947-48 ended in an armistice, but there never has been a final peace settlement.

"We try to point out that what ever benefits the state as a whole benefits them," he continued.

The trouble, Price said, is that an industry of the type which smaller communities could accommodate—industries which employ 20 or 30 persons—are established in small towns already and are not moving.

'Grow Up'

The best chance for a small community is for something that starts there to "grow up," he added.

Perfume That Clings

Q.—Dear Penny: I adore perfume, but for some reason or other its fragrance just does not last on me. I have told several of my friends that I want a new perfume, but first I must find out about a lasting one.

—Mrs. A.W.

A.—A particularly good idea for women who claim that perfume does not "stay with them" is a Liquid Skin Sachet. It smooths on the skin very easily, lingers longer, and has a slower rate of evaporation because of its sachet base. Try this Houbigant Liquid Skin Sachet in three treasured fragrances: Chantilly, Quelques Fleurs and Ideal, all for \$1.85 plus tax, available in TOILETRIES . . .

One Job Well Done

Nebraskans could derive an infinite satisfaction from the report by Mrs. Harold Prince, chairman of the Nebraska State Board of Control, setting forth the accomplishments of a long-range building program.

In six years of a special building levy to run for 10 years, the board has spent an approximate five millions to improve the physical plants of the institutions which come under its jurisdiction. This building program came during years of abundant harvests, high farm commodity prices, peak business or prosperous times. That is when capital expenditures can best be borne and when a state, looking ahead, should put its house in order. As far as it has gone, it is a job well done. The facilities for the mental institutions caring for Nebraska's unfortunates are not complete but at least the Board of Control by careful planning and by using every available dollar effectively and economically has gotten over the crushing hump.

Full credit for this long-range building program goes to a legislative agency which receives all too little commendation. The special mill levy is the product of a painstaking study by the Nebraska Unicameral Legislature. It assumed responsibility, it furnished the leadership, and it is entitled to great credit. No political party in Nebraska had the courage or the vision to urge a long-range building program for the institutions under the Board of Control, the state university and the normal schools. No gubernatorial candidate took the initiative in this field. We have the legislature to thank for taking an inventory of Nebraska's building needs and then proceeding with steps to correct intolerable conditions of housing—obsolete, unsanitary and unsafe buildings that were a hazard to the lives of hundreds of people.

When this 10-year program is completed, it can be said now that it will represent one of the finest programs upon which the people of Nebraska have embarked.

Dictated By Events

Roscoe Drummond, of the staff of *The Christian Science Monitor*, comes up with the information that Gov. Adlai Stevenson has abandoned the role of "hard-to-get."

It is Gov. Stevenson's intention, Mr. Drummond said, following the meeting in Washington last week to take a firm grip on Democratic party leadership. When President Truman rides down Pennsylvania Avenue in the inaugural parade with Gen. Eisenhower, his successor, it will be Truman's swan song. He is stepping down and out as an active participant on a broad national scale. As titular head of the party, Gov. Stevenson is taking over, energetically, vigorously, hoping to revamp and revive the Democratic party. The job which faces him in one particular is precisely the same difficulty that confronted a Republican party victorious in 1952, but futile in its efforts for so many futile years. It is the difference that arises between a party standard-bearer and congressional leadership.

The complete official returns from 38 of the 48 states, with a slightly incomplete count from the remaining 10, could lend encouragement to Gov. Stevenson. His triumphant opponent, Gen. Eisenhower, got 32,886,948 votes. This is five million more votes than any presidential candidate heretofore has polled. Gov. Stevenson himself received 26,548,730 votes, within a few hundred thousand of the number cast for the late Franklin D. Roosevelt in 1936, when F.D.R. carried all but two of the 48 states in the Union.

Gov. Stevenson's political sagacity best is revealed by the announcement that he has no intention whatsoever of becoming a commentator or even giving political talks at regular intervals. He believes that speeches, if they are to have any vitality and meaning to the nation, must be dictated by events and not by the calendar. Mr. Drummond adds that Gov. Stevenson does not, as a matter of fact, intend to identify himself as by any means automatically in opposition to what the Eisenhower administration may be doing. He does not believe that because the Republicans now control both the government and the editorial views of the great majority of the newspapers and magazines, it is important that there

should be a voice which, as occasion requires, will be saying, "Stop, look, and listen."

That is one point which many people miss. We think of laying out a plan, calendar-wise, charting a course, step by step—and then, wham!—something happens to blow our best-laid plans into a thousand tiny bits. That is the kind of world in which we live today. It is the world of a mature America, no longer isolated, acutely sensitive to all developments, large and small, the world over, developments taking place hundreds or thousands of miles from American shores. We may not like it, many of us, but the cold facts of life are that our thinking and our everyday living are etched profoundly by day-by-day developments.

Only yesterday something seemed to be of the utmost importance. But today, because something happened within a few hours, that which is claiming attention now was not even foreseen. It is that uncertainty, that inability to plan in a long-range sense, the haphazard quality of our times, which were heavily upon all men facing responsibility and which will wear just as heavily upon Gen. Eisenhower. He needs this understanding on the part of the American people. Gen. Eisenhower deserves the reflection of his fellow countrymen that while he may have had his mind fixed upon one objective, the dictation of events may require him to pursue a wholly different course. Without that understanding generally on the part of Americans, he could face a bad time of it.

The difficulties unsuccessful Republican candidates encountered through a sweep of 20 years in dealing with Republican congressional leadership never seemed to make allowance for the fact that American policy today is dictated largely by events. That is the conflict which Gov. Stevenson will have with the Democratic leadership in Congress. We are no longer young; we are no longer remote from the ripples set in force throughout the world; we are no longer isolated or living in isolation. Our thoughts, our actions, and our lives are dictated by events, and that does not necessarily mean events that happen here on the soil of continental America.

Father Goes Shopping

This is the season of the year when Father realizes his deficiencies—and what is more, frankly admits them.

From early morning until sleep comes to his rescue at night, he walks around in a daze, absent-minded, indifferent to matters that usually occupy his attention, a look of abstraction which could be mistaken for pain. What to buy for Christmas? Well, Dad is willing to admit that he is not particularly original when it comes to figuring out Christmas gifts. Under pressure he might even admit that he lacks imagination. He does have a little bit of grace—a matter of

something like a fortnight—left and with a little bit of encouragement, may get going.

It isn't a matter of acquiring the spirit—the spirit is there in abundance. It is a question simply of ideas. Actually the old boy loves every minute and every hour of the Christmas season. It means that the youngsters are home and while Dad is not of a suspicious nature, he fully understands all the special attention being heaped upon him at this time. In fact, just before Christmas, he might even say that he never had it so good!

New Man In Mexico

A great opportunity faces Adolfo Ruiz Cortines, who last week was presented with the tricolor presidential sash at inauguration ceremonies in Mexico. Don Adolfo—as he is known affectionately to millions of persons south of our border—comes to power at a time when Mexico looks forward to further advancement toward the goal of becoming one of the western hemisphere's most solidly-based democracies.

Mexico's history is a saga of revolutions and revolutionary strong men. Ruiz Cortines looks

more like a clerk in a metropolitan department store. He has a background of revolutionary activity and work in Mexico's precarious underground that in his youth overthrew the oppressive dictatorship of Gen. Huerta. But those days are far behind Ruiz Cortines; he stands today at the head of a party which seeks reforms and improvement of the lot of the common man, but only by temperate governmental measures.

He has a reputation as a man equally at home talking to the man on the street and hacking out agreements with high-powered politicians. His gaunt, almost cadaverous features can reflect an iron will. He is a friend—a good friend—of the United States, pledged to carry on the policies of his predecessor, President Aleman. In both domestic and foreign affairs, Ruiz Cortines appears to be a man who will earn a fine reputation.

Presidential Assistants To Have New Burdens

SHERMAN ADAMS

WASHINGTON — The pattern of Eisenhower's operation when he takes over the toughest job in the United States on Jan. 20 is now becoming clear.

In brief, the new President will devote his time chiefly to two main policies — defense and foreign affairs. He will let other domestic matters be handled by the "assistant President" or chief of staff, Gov. Sherman Adams of New Hampshire.

Gov. Adams, only member of Ike's staff or cabinet — except for Maj. Gen. Wilton Persons — whom he has known well for a year, has become extremely close to Eisenhower. He is also an able executive, knows how to manage people, and will handle all the detail of the White House.

Hitherto, every cabinet member has taken his problems direct to the President personally. In fact, much more is done in direct conferences between the President and single members of his cabinet than in cabinet meetings. To confer with each member of the cabinet is a terrific drain on any President's time, and the Eisenhower plan is to try to avoid this.

Therefore, conferences on domestic problems involving the secretaries of the treasury, commerce, interior, agriculture, etc., would take place with Gov. Adams, leaving Eisenhower free to concentrate on defense and foreign affairs.

Another drain on a President's time is a steady stream of calls from members of the House and Senate. It is traditional that any senator or congressman, no matter what his party, shall have the right to call on the President.

Under the Eisenhower administration, liaison with Congress will be handled by Gen. Persons, an old Army friend of Ike's who

handled Army problems with Congress during the war. Persons was so good with congressmen that he won the nickname, "Slick."

Whether he can be good enough to avoid the traditional "right" of a congressman to confer with the President, however, remains to be seen.

At any rate, the new President plans to do his best to keep himself free to concentrate on major problems.

On election night, as the joyous returns kept coming in, Eisenhower's headquarters, the general kept inquiring for the man who had helped so much to make those returns possible.

"Where's Sherman?" he asked. "Where's Sherman?"

On election night, as the joyous returns kept coming in, Eisenhower's headquarters, the general kept inquiring for the man who had helped so much to make those returns possible.

"Where's Sherman?" he asked. "Where's Sherman?"

On election night, as the joyous returns kept coming in, Eisenhower's headquarters, the general kept inquiring for the man who had helped so much to make those returns possible.

"Where's Sherman?" he asked. "Where's Sherman?"

On election night, as the joyous returns kept coming in, Eisenhower's headquarters, the general kept inquiring for the man who had helped so much to make those returns possible.

But Sherman Adams was nowhere to be found. Finally, like sent aides to search for him. They found the governor of New Hampshire sitting in the balcony of the hotel ballroom, chin on arms, arms on the balustrade, looking down peacefully at the giant election scoreboard. He was not interested in political congratulations, only in political results.

Reporting behind closed doors to the business leaders, Secretary of Defense Lovett happily revealed the other day that we are over the hump and breaking all records on military production.

"In the last three months," he reported, "we produced more aircraft than we have lost in Korea since the beginning of the war. And in July and August alone, we produced more tanks than we have lost in the Korean War."

Production of military hardware, he announced, had been stepped up six times during the past two years. But even more impressive, the speed-up rate has been higher than the best 12 months of World War II.

Lovett pointed out that Russia had a four-year head start, because "we walked off and left our equipment all over the world after World War II."

He called this a classic example of "haste makes waste," and warned against letting the Politburo "force us to put on and take off our overcoats by changing the temperature at the Kremlin."

This "on-and-off, feast-and-famine routine is too costly," he declared.

The Secretary of Defense concluded his optimistic talk by assuring that the nation's problems were "no worse than what our forefathers faced." He predicted "eventual, world-wide peace."

VOICE OF AMERICA
Gen. Eisenhower has been keeping it under his hat, but he will shift the brain trust which is responsible for "cold war" strategy from the State Department to the National Security Council.

This means both the staff work and the policy decisions will be coming out of the Security Council, which will then become one of the most important agencies of government. Its members will include President Eisenhower, Secretary of State Dulles, Secretary of Defense Wilson, and Mutual Security Administrator Stassen.

The recommendation to reduce the State Department's responsibility and give more power to the Security Council came from Eisenhower's chief backstop adviser, Gen. Lucius Clay, who is playing one of the most important roles in the new administration. Under his plan, the State and Defense Departments would submit recommendations, which would then be analyzed and coordinated by the Security Council.

Gen. Clay also recommended removing the Information Service and Voice of America from the State Department, and consolidating all America propaganda activities under the Mutual Security Agency. Clay's idea is to put the information program and foreign-aid programs under one head so Europeans will be told more about what America is doing for them in Europe, not what we are doing here at home.

By stripping the State Department's power, Clay would also appease McCarthy, McCarran and other critics.

NOTE: Gen. Clay, as commander of U.S. forces in Germany, had a close-up look at both American propaganda and American aid to Europe.

(Copyright, 1952, by Bell Syndicate)

renouncing war and banning preparation for it.

But all political constitutions—the Japanese included—share one common characteristic. All can be revised, amended or even replaced.

Indeed, voices have been raised in Japan and elsewhere, proposing or hinting at repeal of the "no armaments" provision.

THE PEOPLE SPEAK

John Bull, Taxes, Baseball For Lincoln

Britisher And America

Lincoln, Neb.
To the editor of *The Lincoln Star*: Recently in many editorials you have told us of your travels from Pacific to Atlantic and northward and southward, and your impressions. The following was written by Sir Oliver Franks, British ambassador to the United States, who, like you and I, experienced and enjoyed it during the last four years from about the same slant.

"I shall always remember the America of the simple white meeting house and the skyscraper of the city; the light of the lonely ranch house glimpsed from the swift-moving streamliner; the tall timbers and the majestic rivers. I shall remember the rich cornfields; the drifting cattle on the limitless range; the arched backs of the cotton pickers; the luminous rose of the blue flame; and the tang of the sunburnt air of the Southwest. And through them all I shall remember the connecting link of people—warmhearted friendly people who in their lives exemplify the word 'neighborly.'"

BRUTUS HISTORICUS

For Our Youngsters

Lincoln, Neb.
To the editor of *The Lincoln Star*: I am sure a lot of baseball fans will get behind the coming eventful week and make a big success of it to assure baseball at Sherman Field again in 1953.

I personally will be very disappointed because I feel now more than ever it is important to keep it in Lincoln for the young boys who through midget leagues in recent years have taken more interest in our national game than ever before.

Take my own son, for example. He is 3 1/2 years old now and ever since he was 10 months old he has been attending the games regularly with me. Today he remembers players of two years past, and also the umpires. Already he is anxious again to see baseball at Sherman Field. Some day I hope to see him a big leaguer. Baseball here will materially help in molding Lincoln lads for such careers.

JOHN HERBERT

On Helping Others

Lincoln, Neb.
To the editor of *The Lincoln Star*: The thing of importance, it would seem to me—the fact on which all mankind should be

Close To Home

By ED FITZHUGH

CURTAINS DOWN

Our house is a mere shell of its former self, and don't be surprised if at any moment a Daschund comes through the shell, pursued by a Budgerigar.

The Daschund might be either Jeep or Gypsy, who have rejoined our family after a long absence. The Budgerigar could only be McGuffey, who took over control of the family while the dogs were absent, and so knew nothing of their existence until they came home last week.

He was not at a disadvantage, though. Neither did Jeep and Gypsy know of the existence of Budgerigars, which some people call parakeets and others very erroneously call love birds. Even now I am firmly convinced that each one believes the other to be a nightmare.

McGuffey has changed policy several times with respect to the dogs. At first he appeared to think that if he ignored them, they would go away. On the other hand, they were fascinated by his bright colors, and showed signs of wanting to play with him. Jeep made the mistake of leaping onto a chair, and from there onto a table, in an attempt to carry out this desire. He knocked over a bowl of flowers in the process.

McGuffey misunderstood. He accepted what he conceived to be a challenge. He swooped, and his beak clicked. It was sharp points and sharper edges. Jeep howled. He left the table, taking a floor lamp out of play as he came down. He does not fly as well as McGuffey, nor alight as easily. He found a soft spot upon which to land, though. It was Gypsy.

She misunderstood. A Daschund, although peace-loving, is an aggressive kind of dog when aroused, as you may readily understand when you consider that the breed was developed to battle with badgers. Gypsy was aroused. She shredded Jeep's ear. He retaliated. McGuffey sat on a curtain rod and chuckled. The dogs rolled under an end table, which overturned. McGuffey shrieked his appreciation. He admires destruction.

He should have kept still. The noise brought unfinished business to Jeep's mind. He eluded Gypsy and leaped for the curtain, estimating that it could pull it down. It was only half right; the curtain came down, but McGuffey stayed up.

It seemed time to intervene. I grabbed for the Daschunds, yelling reproofs. McGuffey was yelling encouragement. It confused me. I missed my grab and bumped the radio. It tumbled. McGuffey was delighted. He swooped, taking a nip out of Gypsy this time. Now she had a score to settle.

She leaped to settle it. I am not sure whether she missed her aim, or whether she really thought that I was the one who had nipped her. The result was the same in either case. She took a steak out of me. I howled. Jeep barked. Gypsy, conscience stricken, whined.

McGuffey cackled. If Mrs. F. hadn't come in just then, I would have wrung the bird's neck. Instead, I have been busy repairing furniture.

urged to center attention—is this life—this present life in the known reality of the here and now, and not upon speculation of other worldly reward or punishment.

Someone has said: "Man can best serve God by serving his fellow man." I can most heartily subscribe to the grand precept therein implied. There is no human duty comparable to that of being kind to one another. I am fortunate in living within a community in which every neighbor never fails to exemplify this grand virtue of human kindness. If I ever have a need, some one of these fine neighbors of mine immediately come forward to my relief. This, in my humble but equally firm opinion—this human kindness—is what every church and fraternity should constantly teach and preach, that it may become the universal practice among mankind.

After all, human life is conceded to be the most sacred thing in this world. Then what better mortal do than something to make this life for his fellows better, easier, happier and richer? The great pity is that only the fortunate minority in this world really live, while all the vast majority ever know is a mere existence. With Jefferson and Lincoln and all the great humanitarians, I must hold that this is wrong. Let all men ponder on this fact and seek until we have found ways and means of correcting this great inequality in human life.

O. BRYON COPPER

Property Taxes

Big Springs, Neb.
To the editor of *The Lincoln Star*: Those who would outlaw property taxes by constitutional amendment hide their purpose in the ambiguous use of the word "property."

These advocates hold that excessive property taxes demand the amendment. On what kind of property are taxes excessive? On a portable shack on rented ground, the actual value is taxed here at \$5.24 on \$100. The tax on average actual land value averages only 48 cents on \$100. In cities taxes on actual ground values are comparatively nil.

The amendment would serve to squeeze in total tax exemption on land values under cover of principles that justify exempting personal property from tax. Such scheme is a perversion of principles of just taxation.

Land and ground values are created by community development and government projects, not by individual labor of owners. These values properly belong to all people and constitute the natural source for paying costs of government. Since law and custom has conferred upon owners the privilege of appropriating these values for their own benefit, it is the obligation of owners to pay taxes in reasonable proportion.

C. J. JOHNSON

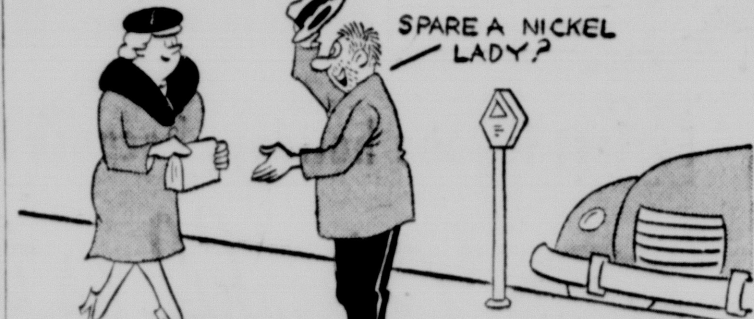

Grain Of Salt

Lincoln, Neb.
To the editor of *The Lincoln Star*: Mr. Truman's statement that he ok'd the \$1.90 daily pay for the coal miners to save the new administration embarrassment when it takes office will be taken with a grain of salt by most people who follow Washington events. He simply wanted to give the miners a raise. Since becoming President, the most of his thinking has been for handouts to different organizations for the sole purpose of winning the 1952 election. Eisenhower will handle the problems confronting him with bare hands.

Rule Intended Make Liquor Price Uniform

By ARCH DONOVAN
Star Staff Writer

The state liquor commission Monday issued a statement giving reasons for the adoption of Rule 46, the so-called "price fixing regulation," and the method of operation. The statement, according to the commission, was felt necessary because the rule has been distorted by opponents of the rule and of the commission.

It was explained that the industry was aware of conditions which the rule seeks to correct and that at the time of its adoption they did not realize their statement was not enough in detail to keep the public from being confused.

"Primary purpose of the rule is to require all liquor and beer wholesalers to sell to all retailers at the same price," the statement said. "The regulation is not price fixing in any manner because the wholesaler can fix his own price, but it must be uniform. The retailer may charge the consumer any price he desires."

Letters Shown

The commission showed letters from retailers in cities both large and small praising them for their action. Inspectors in the field reported that approximately 90 percent of the retailers favored the new rule.

Explaining why the rule was passed, the commission statement said:

"In the past, many of all of the wholesalers have allowed quantity and cash discounts and free merchandise to certain of the retailers. In some cases this was based on quantity buying, but in other instances it was given as a favor or an inducement to encourage sale of certain brands which the wholesaler handled."

"The practice is in direct violation of state and federal laws which prohibit a wholesaler from giving anything to a retailer, either in the way of free merchandise, special favors, or anything else of value in order to secure business from that particular retailer."

The commission said that

their investigations show that only approximately 10 per cent of the retailers get advantage of rate and larger operators, and that the other retailers actually have to pay for the discount given competitors.

"It is common knowledge that in some localities, some retailers are able to sell to consumers at a lower price than other retailers in the same town can buy from wholesalers," the commission said. "It certainly should be evident to everyone that this is not a healthy condition, especially in an industry that by its very nature must be regulated."

'Thorough Study'

The commission pointed out that the regulation was adopted only after a thorough study of conditions in Nebraska and investigation of practices in other states. They insisted the fundamental elements of salesmanship, business ability, personality and good judgment will still exist.

Attention was called to the recently adopted regulation to enforce the 30-day credit laws between wholesaler and retailer. They said it received unanimous support from all branches of the industry, but pressure selling by wholesalers with discounts tends to encourage violation.

The commission answered criticism directed at it for not holding public hearings before adoption of the new rule. This, they said, was done to avoid a wave of pressure and over-buying before the effective date making the rule ineffective for many months to come.

ber Gus Rydman in Omaha, they explained, was because of his ill health and the fact that his resignation had not been accepted and a successor appointed by the governor.

Chairman Carl Linn and Member Nathan Pont said they believed the rule of sufficient importance to have all members vote and that the decision was unanimous.

The members said that during the illness of Rydman they have constantly conferred with him by telephone on decisions where he did not hear evidence.

Hearing Possible

"If the industry feels that it has been dealt with unfairly on this matter, the commission would be glad to give consideration to a public hearing at this time," the statement continued.

Statements that prices will have to be raised to consumers has been denied by every wholesaler and retailer contacted, the commission said.

"Even if this were true, it is not the purpose of the liquor control act or the commission to make available to the public all the whisky they desire at a cheap price, rather the purpose of the act is to 'promote temperance in the consumption of alcoholic liquors,'" they continued.

"It should also be borne in mind that neither Congress nor our own state legislature has considered price to the consumer as

1952 State Insect Damage Reviewed

Here is a thumbnail sketch on how insects affected the income of Nebraska in 1952.

University of Nebraska entomologists say the year saw a heavy infestation of Hessian fly on wheat in western Nebraska, red spider mites on "everything" including field corn in the Platte Valley, common stalk borers, the late building of screw worms on livestock and the damage to lawns by the annual white grub.

Also noteworthy was the generally light grasshopper infestation. A fall egg survey showed the European corn borer virtually completed its grasp of the state and now is probably in all corn growing areas. The population trend has continued downward, however, and has reached the lowest point in three years.

Hessian Fly

Infestation of the Hessian fly was greatest this year in Keith, Cheyenne, Kimball, Perkins and Chase counties. An appreciable reduction in yield was reported in many western Nebraska counties because of the fly.

BAGS FOX IN RACEWAY

BADLANDS—William (Wild Bill) Goerge, 9, displays the fox he bagged while hunting "Indians" in the backyard of his Belleville, Ill. home. Young Goerge is shown pointing at the animal with the toy cap pistol which he used to club the fox to death after it grabbed his trouser leg. (AP Wirephoto.)

The first report of damage from an insect called the lesser clover leaf weevil in Nebraska was this year in Chase county. An appreciable year in Seward county.

Large populations of red spider mites developed on numerous species of trees, shrubs, ornamentals, fruits and vegetables. In early August the two-spotted insect was becoming abundant in field corn in the Platte Valley. There was a definite reduction in yield because of them—from Hershey on the west to Schuyler on the east.

Grasshopper infestation surveys show that the insect's potential for next year is at the lowest point in many years.

Many eastern towns and communities had a heavy outbreak of the cankerworm for the third or fourth consecutive year. There was severe defoliation of elm and hackberry trees in the eastern half of the state.

The screw worm fly took a prominent place in the insect picture, starting in August. By mid-September, the infestation was general throughout the central and eastern part of the state. The infestations are especially serious when they attack the navels of newborn calves.

SINGAPORE (AP)—The British

Ord Christmas Party Scheduled Wednesday

ORD, Neb.—(Lincoln Star Special)—The annual Christmas party which the Ord Chamber of Commerce sponsors for the children of the community will be held here Wednesday, Dec. 10. Following the free movie, Santa will distribute treats to the kiddies.

The Christmas lights have been turned on and Christmas trees line the walks in front of business places on each side of the square and the business district off the square.

To Those Looking for Something Better

Christian Science has come to show that life, as God has given it to us, is in reality wholly safe and harmonious.

However dark or difficult things may seem, this truth is practical and provable now. The sure path of deliverance is revealed through thoughtful study of the Christian Science textbook.

SCIENCE AND HEALTH with Key to the Scriptures by Mary Baker Eddy

This truly Christlike path is open to all through scientific prayer. Such prayer brings joy and peace and freedom, as many grateful students testify. It can bring them to you if you will put Science and Health to the test in daily life.

The suggestion was made by British Trade Commissioner K. E. MacKenzie. Radio engineers present working here have little or no television experience.

'52 Train Shipping Season Is One Of Best

Freight Car Problems Discussed

OMAHA (AP)—More than 200 members of the Central Western Shippers Advisory Board opened a two-day meeting in Omaha Monday to discuss freight handling problems and the completion of one of the biggest years in the history of hauling.

L. J. Becquet of Lincoln, general chairman, said the meeting marks "the successful completion of the train-shipping season—and no one was hurt terribly in spite of some freight car shortages."

R. E. Clark of Washington, manager of the closed car section of the Association of American Railroads, said much progress has been made in campaigns to have receivers clean out cars and return them to service quickly.

The average "turn-around" or waiting time between loads, is now 15 days, he said, compared with a World War II record of 14 days when all rolling stock was in maximum use.

Clark also said the railroads would be in much better shape today if a world war were to start than they were in 1941. Freight handling methods in terminals have been modernized and streamlined. The average boxcar in use also is much younger than it was 10 years ago.

Graf Named Officer Of State Architects

OMAHA (AP)—Edward J. Seisinghaus of Omaha is the new president of the Nebraska Architect's Association. He succeeds Marvin L. Robinson of Lincoln in that capacity.

Other officers are: Arthur A. Hehnke, Scottsbluff, vice president; Louis A. Cutler, Omaha, secretary; Burket E. Graf, Lincoln, treasurer; James E. Leftus, Omaha, director for two-year term. The officers were elected at the group's annual meeting.

Exeter Youth Leaves For Trip To Europe

EXETER, Neb. (Lincoln Star Special)—Hans Nelson, 21-year-old son of Mr. and Mrs. Chris Nelson of Exeter, is en route to New York City from where he will sail Dec. 10 on the Norwegian liner, "Oslo Fjord." He will make an extended visit to Denmark and other European countries.

His trip is sponsored by the American Scandinavian Foundation. As a farm exchange student he will work on Danish farms and attend folk schools. He is a member of the International Youth Hostel's organization, and plans to tour the European countries by bicycle during the summer months.

ANDERSON

Hardware & Plumbing Co.

Open Thurs. & Sat. Nights 6132 Havelock Avenue

FAIR WEATHER—Occasional rain is expected Tuesday in the Appalachians, the upper Ohio valley and the northern half of the Pacific coast. Some showers are due in northern Florida and the east coast of Texas. There will be snow in the upper Great Lakes area and the northern Rockies. The rest of the country will have fair weather. A turn to colder is expected in the Great Lakes, the Midwest and southern Plains areas. (AP Wirephoto Map Monday Night.)

Omaha Couple Foresee Housing Problem—Anticipate Triplets

OMAHA (AP)—Mrs. Eugene Blandford says she never won any contests but "I guess I hit the jackpot this time."

The Omaha woman was referring to doctors' forecasts that she will soon give birth to triplets.

Triplets occur on the average of once in about 10,000 births.

The excitement that has run through the Blandford household since doctors made their prediction is being shared alike by nurses and manufacturers of baby foods.

"I'm about as excited about it as Mrs. Blandford," the attending physician admitted. It would be the first set of triplets he has delivered.

Two national firms—one producing canned milk and the other prepared baby foods—have offered to furnish their products free for a long period.

Some stores have arrangements on multiple births that entitle the parents to free baby clothing for the infants exceeding one. Immanuel Hospital also may provide some services without cost—the first set of triplets will be the first born there.

Blackfeet Given Continuance In Kidnaping Case

KIMBALL, Neb. (AP)—The arraignment of Thomas Blackfeet, 20, Porcupine, S. D., youth charged with kidnaping and assault on two women, has been continued to Dec. 13.

This continuance, second asked for him, was granted by District Judge John Kuns at the request of Blackfeet's attorney, E. W. Hollstein of Rushville.

Judge Kuns instructed the attorney, however, to be ready to file his motions at that time and to "have in mind the prospect of a reasonably early trial." A District Court jury will be called in Kimball Dec. 16.

Horse Pleads Innocent

Douglas Horse of Kimball, charged with aiding Blackfeet in the alleged kidnaping and assault on two women Nov. 8, pleaded innocent at his arraignment. The court overruled defense motions to quash indictments.

The two men are accused of entering a Kimball cafe Nov. 8 and forcing Mrs. Belva Cole, 47, and Mrs. John Eby, 66, to enter their car. Both women were beaten and had to be hospitalized. Mrs. Eby was forced from the car about three miles from Kimball and Mrs. Cole was found in the rear seat of the car.

Blackfeet had escaped from a work detail at the Nebraska prison farm.

Ex-Nebraskan Teaching High School In Japan

BARNESTON, Neb. (Lincoln Star Special)—Mary Taylor, former Barneston teacher and one-time Lincoln resident, is now located in Osaka, Japan, where she is teaching.

Nebraska News

Fall Proves Fatal For Norfolk Man

NORFOLK, Neb. (AP)—Henry Krumweide, 77, of Norfolk died in a hospital of a back fracture suffered in a fall down his basement stairs.

Krumweide retired in December, 1945, after serving with the Minneapolis and Omaha railway for 47 years. He had worked at Blair, Pender, Herman and Bancroft before coming to Norfolk in 1933. He is survived by three daughters. Mrs. Krumweide died in 1943.

Falls City Firemen Help Battle Flames

FORTESQUE, Mo. (AP)—Firemen from Falls City, Neb., joined those from Fortesque and other nearby towns in fighting a fire at the large, brick Methodist Church here. The church was destroyed, however, by the blaze which apparently was caused by an overheated coal furnace. The church was flooded by the Missouri River last April and had been completely remodeled since then.

Former Lincolnite Dies In Accident

A former Lincoln man, Bert Allen, 39, was killed Saturday in a car accident at The Dalles, Ore.

Allen was a railroad employee in Lincoln and Cortland before moving to Oregon several years ago. He was born and reared in Cortland and lived for a while in Council Bluffs, Ia.

Survivors include his wife Hazel, two daughters, Shirley and Dorothy; one son, Larry; his mother, Mrs. Mary Allen of Omaha; his father, Fred of The Dalles, and three brothers, Clyde and Elmer of Lincoln, and Otis of Cortland.

Clyde and Elmer Allen and Mrs. Allen of Omaha left Sunday to attend funeral and burial services in The Dalles.

People are reading more newspapers than ever before in history

3,000 YEARS AGO the front-page news was heavy, mainly because the tablets were of stone.

BEFORE COLUMBUS SAILED, people discovered a new world when Gutenberg invented printing.

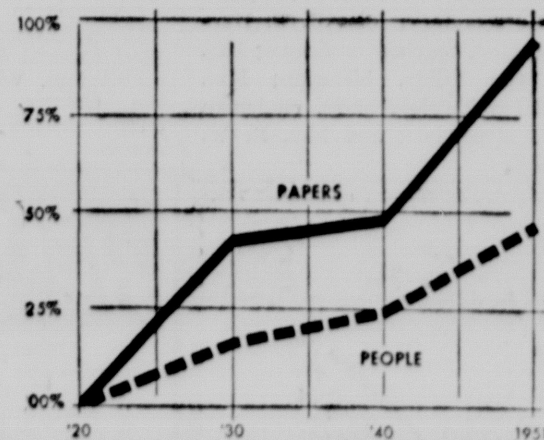

WHEN FREEDOM FOUGHT for a foothold in colonial days, one of its weapons was the newspaper.

GENTLEMEN PREFERRED NEWSPAPERS in the Jazz Age. Even though infant radio squalled so lustily.

NEWEST THING on the scene is TV, which means even more for people to read about—in newspapers.

CIRCULATION OF NEWSPAPERS in the U. S. has grown twice as fast as population. In 1920 the population was 106 million; today it's 155 million—up 47%. In 1920 weekday newspaper circulation was 28 million; today it's 54 million—up 94%!

Today people are reading more newspapers than ever before.

A survey of TV's effect on family life, called "Videotown 1952", conducted by Cunningham & Walsh, Inc., the well-known advertising agency, says:

"Newspaper reading is just about the only regular activity which showed no change after the advent of TV."

This survey shows that among families with TV, just as many people read newspapers today as in the days before TV.

And that's not all: It shows that they spend just as much time with the newspaper as in the days before TV!

The newspaper is a medium that grows stronger and stronger as people gain more and more interests in the world around them.

And ads in newspapers are more and more effective. Because they reach more people than any other medium. Because newspaper advertising has an urgency—a brass-tacks . . . local . . . down-to-earth quality that no other medium can match.

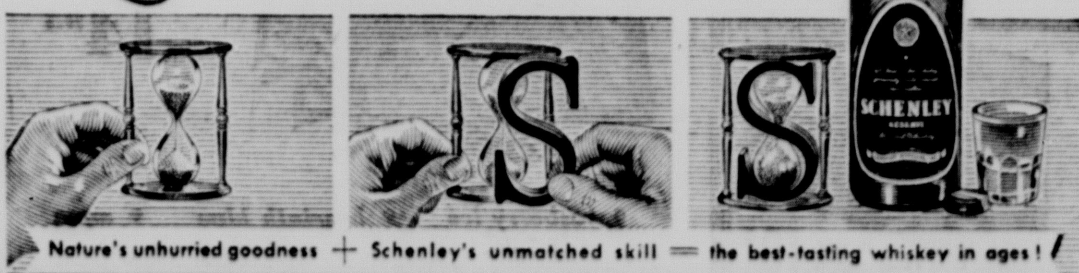

The newspaper is always first with the most

This message prepared by BUREAU OF ADVERTISING, American Newspaper Publishers Association and published in the interests of fuller understanding of newspapers by

THE LINCOLN STAR

The Star Goes To Beatrice For The Assembly Party

Mrs. T. A. Woodward (left) Mrs. George Schaefer and Mr. Woodward, stop for a greeting as they arrive at the Paddock hotel for the Assembly holiday dance.

At one of the foursome table at the dinner for which Mr. and Mrs. Jefferson Weston and Mr. and Mrs. Herbert T. Weston, Jr., are hosts and hostesses at the Paddock preceding the Assembly dance we found (left to right) Mrs. Jefferson Weston, Thomas A. Woodward, Elmer Hubka and Mrs. Dan McClery.

Taking time out between dances were (left to right) Mr. and Mrs. Arvid W. Eyth and Mrs. H. R. Dietemeyer.

Having fun at the Assembly holiday party are these dancing couples—Mrs. Stanley Wotta and Mark Walsh (left)—Mrs. Walsh and Mr. Wotta.

Town Talk

TALK OF THE town — last week-end at least, was the very smart red and green plaid coat one of the better known gents wore—first at an hors d'oeuvre party—and then to the One Hundred Club dinner dance—Dark green string tie to match, too—

MORE TOWN TALK is speculation as to what the weather will be on Monday, December 29—There are those who plan to go to Omaha to attend the wedding reception for which Mr. and Mrs. Harold LeMar had invitations in the mail on Monday—The reception, between the hours of 5 o'clock and 7 o'clock, will follow the marriage of Miss Lorraine LeMar to Carl Henry Rohman, son of Mr. and Mrs. Carl Rohman of Lincoln, and will be held at the Omaha Club.

HEAR THAT Lieut. Colonel and Mrs. C. B. Carlsen and their daughters, Carol and Christie, are coming Thursday to spend four days in Lincoln as the house guests of Colonel Carlsen's parents, Mr. and Mrs. C. C. Carlsen. The guest foursome is stopping off in Lincoln en route to Fort Robinson Air Base in Georgia, Colo. Colonel Carlsen recently returned from Korea where he had a year's tour of duty with the Fifth Air Force headquarters.

DELTA GAMMAS are talking about the Christmas tea for the active and alumnae members of the sorority which has been planned for Sunday afternoon, between the hours of 4 o'clock and 6 o'clock, at the chapter house. In charge of the party details are Mrs. Carl Olson and Miss Barbara Turner.

APROPOS OF Greek letter row —someone told us that Mrs. James Speaker of Kansas City, Mo., newly appointed province president of Pi Beta Phi Sorority, will pay an official visit to Nebraska's Beta chapter later this week. Mrs. Speaker, a member of the Kansas City Junior League and the League of Women Voters, is to be honored on Friday morning when the active chapter entertains at a coffee. The sorority's alumnae advisory board will honor

BACK HOME AGAIN are Mr. and Mrs. Charles W. Swingle who returned last week-end from the west coast on a combined business and pleasure trip. In San Francisco they visited their daughter, Miss Kathryn Swingle, who now is a careerist—a trust company, no less.

DELTA GAMMAS are talking about the Christmas tea for the active and alumnae members of the sorority which has been planned for Sunday afternoon, between the hours of 4 o'clock and 6 o'clock, at the chapter house. In charge of the party details are Mrs. Carl Olson and Miss Barbara Turner.

Auxiliary To Entertain

The annual Christmas party of the Auxiliary to the Lincoln Firemen will be held at the home of Mrs. Francis Donnelly, 940 South Twentieth street, at 8 o'clock, Tuesday evening. Mrs. Marvin Grote will be assisting hostess, and all firemen's wives are invited to attend.

Infectious Colds Spreading—

Here's best-known home remedy to relieve suffering overnight!

For chest colds' muscular soreness and tightness, rub Vicks VapoRub all over throat, chest and back.

VapoRub's relief-bringing action starts instantly... 2 ways at once. And it keeps right on working for hours and hours... even while you sleep!

Only home-proved VapoRub gives you this special penetrating-stimulating action.

Act promptly... and don't take needless chances

With epidemic colds on a rampage, don't gamble with untried remedies. At the first sign of a cold, use Vicks VapoRub... trusted family standby in over 40 million homes.

Toastmistress Club Dinner

Miss Anne Mischnik, toastmistress, selected eight members of the Lincoln Toastmistress club to present extemporaneous talks at the dinner-meeting of the club, Monday evening.

Speakers included Miss Ann Gustafson, Miss Mercedes Ames, Mrs. Margaret Foster, Mrs. Florence Carrico, Miss Cora Mae Briggs, Mrs. Marie Metzger, Mrs. Angeline Capov and Miss Marjorie Watmore. Miss Josephine Eyer was general evaluator and Mrs. Mildred Weber served as timekeeper.

Monday Ceremony Solemnized

The chancel of Westminster Presbyterian church was appointed with pedestal arrangements of white snapdragons and chrysanthemums, and white candles burning in branched candelabra, for the 8 o'clock marriage of Leigh Ganzel, daughter of Mr. and Mrs.

MRS. JAMES FRANKLYN HARDING

Charles Woods DeForest of McCook, to James Franklin Harding, son of Dr. and Mrs. James F. Harding of Kearney, which was solemnized Monday evening, December 8, Cathedral candles twisted with greenery marked the pews of the central aisle.

The lines of the ceremony were read by Dr. John Douglas Clyde in the presence of two

The attendants' alike gowns in the deep purple shade were designed with strapless, widely-tucked bodices of tulle, snug midriffs of velvet and full tulle skirts caught into side drapes with clusters of velvet roses. Bolero jackets of velvet completed their costumes, and they wore velvet half-caps veiled with tulle. Pale lavender chrysanthemums fashioned their cascade bouquets.

The bride appeared in an Elizabethan gown of pale lilac nylon tulle over taffeta. A deeply-cuffed neckline and long shirred sleeves accented the molded bodice, and wide horizontal folds of the tulle fashioned their cascade bouquets.

Club Names To Celebrate New Officers

Mrs. Ann Payn was elected president of the American Business Women's association at the group's dinner-meeting Friday evening, at the Y.W.C.A. Other new officers include Miss Charlene Moore, vice president; Mrs. Helen Abelson, treasurer; Miss Lois Gumbel, recording secretary; and Miss Beth Hufnagle, corresponding secretary.

Plans were made for the club's Christmas party and buffet dinner to be held Sunday evening, December 14, at the First Federal Savings and Loan auditorium, when members of the Omaha, Columbus and Grand Island clubs will be guests.

HELPFUL HINTS

from GLOBE Cleaners & Laundry

To keep your curtains from blowing around when the windows are open, sew a small loop into the bottom hem of the curtain and place a very small hook on the window casing, high enough from the floor so that curtain may be hooked back when you open the window.

Study Of Parking Need Urged

Mayor Asks Committee Of Council

Mayor Victor E. Anderson has suggested the City Council establish a committee to study the city's off street parking needs.

While the suggestion was favorably received by the Council, more study of the plan was decided upon before setting up the committee.

According to Anderson, experiences in other cities have proven the value of such committees. There are no serious problems in Lincoln at this time, he said, but the matter does need some attention, particularly in view of future growth.

Buy, Lease Lots
It may be necessary, Anderson said, to buy some off street parking lots and lease them to private parties to operate as parking lots. Also, he said, the city may find it advisable to ask the Legislature to pass legislation enabling the city to operate its own parking lots.

The Council was told by City Attorney C. Russell Mattson that many cities are coming to the prohibition of any parking downtown to relieve traffic congestion and furnishing mass transportation from fringe areas into the downtown center.

Many cities, said Mattson, have convinced the downtown business owners that such a plan would work to their advantage. Mattson has just returned from a conference in Louisville, Ky., of city attorneys from all over the United States and Canada.

One of the major topics of discussion, he said, was the problem of parking and mass transportation.

3 Applications For Sidewalk Parking Given Approval

The City Council has approved three applications for parking of cars between the curb and sidewalk and denied a fourth application.

Approvals were given the Earl Carter Lumber Co. on the north side of R at 19th, Western Brick and Supply on the south side of R at 19th and the Pauley Lumber Co. on the north side of E at 27th. Denied was the request of the DuTeau Chevrolet Co. for parking on the sidewalk on the east side of 18th at O.

All parking spaces involved must be hard surfaced by the companies involved. Applicants also had to pay a \$5 inspection fee.

The parking, however, is free to the general public. The parking permit is issued on a revocable basis.

The DuTeau request was denied with a four to three vote. Councilmen Pat Ash and Clark Jeary, after voting for the other three, voted against DuTeau on the grounds that the area in question involved a major downtown sidewalk.

EARL MAXWELL ... 21,550,100 trees in 18 years.

French Student Is More Serious Than American—Georgi

The French student is more serious than the American, Dr. Carl Georgi told the Lincoln chapter of the Military Order of World Wars.

"Although French schools place emphasis on their own sports and athletics, the small talk of the students and professors at the Sorbonne University in Paris is likely to be centered on concerts and recitals of the week, said Dr. Georgi, University of Nebraska professor of bacteriology, who spent a year at Sorbonne as a Fulbright exchange scholar.

He pointed to the difficult entrance requirements, saying that some Americans holding bachelors degrees were forced to wait a year before continuing there.

Dr. Georgi said he did not experience any of the reputed unfriendliness to Americans while there, and complimented the "serious and industrious French scholars who suffered from lack of modern libraries and equipment." He called France still the "home of the artisan who prefers handwork."

\$1,000 Settlement Made

Mr. and Mrs. Jess Mizner were granted a lump sum settlement of \$1,000 Monday by District Judge John L. Polk from the Reimers-Kaufman Concrete Products Company and the Zurich General Accident and Liability Insurance Company.

The settlement was made as a result of the death of their son, Dale E. Mizner, 19, who was fatally injured on Sept. 13 in an automobile accident while he was employed by the concrete company.

Earl Maxwell Accorded Honor By Nurserymen

Earl G. Maxwell, retiring state forester, was honored Monday night by the Nebraska Association of Nurserymen for his 18 years of service.

Maxwell, who has planted 21,550,100 trees throughout Nebraska—an average of 1,169,728 per year—was recognized at the nurserymen's banquet at the Lincoln Hotel which concluded their one day convention in Lincoln.

Karl Loerch, former Pierce County Extension agent, will succeed Maxwell.

Main speaker at the dinner was Chief Justice Robert Simmons, who described the agricultural, forestry and economic situations in Thailand, Japan, the Philippines, China and Burma. He and Mrs. Simmons recently returned from a tour of these countries. Toastmaster at the banquet was Robert E. Campbell of Lincoln.

Ministerial Association Holds Christmas Party

Members of the Lincoln Ministerial Association and their guests met Monday at the YMCA for their annual Christmas party.

Included on the program were numbers by the Lincoln High School Girls' Oulet composed of Mickey Finney, Diane Knotek, Norma Schmitt, Joy Wagner, Barbara Peterson, Marybelle McKim, Catherine Hodder and Mary Joyce Deer. Accompanying the group was Pat Alvord.

A reading was presented by Cecelia Koehnke of Alliance and group singing was led by the Rev. and Mrs. C. E. A. McKim. The Rev. Virgil Anderson presided.

51 Killed, Scores Injured In Casablanca Arab Riots

Anti-French Uprisings Hit Algeria

CASABLANCA (INS) — Fifty-one persons were killed and scores wounded in the Casablanca area Monday in savage Arab riots that spilled into neighboring Algeria Monday night.

While Casablanca nursed its wounds, Arab Nationalists clashed with police in Algiers, in a renewal of the struggle for independence from France.

Nine Nationalists distributing anti-French leaflets and a European Communist were arrested in the Algiers outbreak and a policeman was injured.

The rest of Algeria, like Tunisia, was reported quiet, but officials strengthened security measures to prevent spread of the violence to other parts of French

North Africa. Close to 100 Moroccans, including several Communists, were arrested.

Two Beheaded

Thousands of Arab Nationalists in and around Casablanca fought police and troops with knives, razors, bricks and clubs, and beheaded at least two of their victims, believed to be French women. Officials said they could not make an immediate positive identification because of the dismembered bodies.

In addition to the two French women, the dead included Pierre Ribes, former French district commissioner who was stoned to death, a European who was clubbed unconscious and then burned, and three other Europeans.

An official announcement also listed 41 Arab rioters and three Moroccan police among the dead.

Violence flared up in Casablanca Monday night when 2,000 trade unionists hurled bricks at strong detachments of police and troops raiding union headquarters. Order was quickly restored.

Officials denied earlier reports that a military plane had dropped tear-gas bombs on the Arab village of Derb, outside of Casablanca. The military explained observation planes were over the town but no missiles were dropped.

CHRISTMAS PACKAGES—W. F. Salisbury (left), general foreman at the post office, and George L. Ross, assistant superintendent of the mails, look over a heap of the Christmas packages which are causing an unusually early rush of mail. (Star Photo.)

Lincoln Doing Yule Shopping, Mailing Early

Lincolinites are doing their Christmas shopping early this year.

A look in downtown stores indicates that the annual rush is on.

And another indication comes from the postoffice, where spokesmen say that the Christmas mailing rush seems to have started.

Postal authorities said that this is unusually early for the rush to start.

Monday saw a heavy load of outgoing parcel post pour through. Superintendent of Mails Gerald Jones said that from a survey he made, he believes that Lincolinites are shopping early; and, in turn, mailing early.

The heaviest outgoing mail, however, won't start until the latter part of this week or the first of next week, Jones said.

The incoming mail peak, he

added, is expected the last part of next week.

The postoffice plans to employ about 500 extra persons for the holiday rush.

KIDNEYS MUST REMOVE EXCESS WASTE

Nagging backache, loss of pep and energy, headache and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

\$7,500 Damage Suit Is Filed In 42nd, O Crash

James D. Schwarck was named the defendant in a \$7,500 accident damage suit filed Monday in District Court by Ellis Brown.

Brown charges in his petition that his wife was injured when a dump truck driving by Perry Peterson, Schwarck's employee, collided with the Brown car at the intersection of 42nd and O Streets on Nov. 30, 1951.

The petition alleges that Peterson was making a left-hand turn from the outside lane at the time of the accident. Both vehicles were traveling west.

EVERY YEAR... FUEL SYSTEM RUST gets 1 car in 4

STOP RUST in your car

YOU?

YOU CAN CUT REPAIR BILLS and increase your car's life by using Sinclair Anti-Rust Gasoline regularly. Here's why: — every year, 1 CAR OWNER IN 4, using ordinary gasoline, pays up to \$18 for fuel system repairs caused by rust and corrosion. Don't YOU be the unlucky 4th. Switch to Sinclair — the gasoline that protects as it powers.

Sinclair Gasoline is basically different from all other gasolines — so different it's patented. Only Sinclair contains the amazing rust inhibitor, RD-119®. Used regularly, patented Sinclair Anti-Rust Gasoline protects your carburetor, fuel pump and fuel lines against damaging rust and corrosion... saves you money and the inconvenience of breakdowns.

With Sinclair, you get all the flashing power, high anti-knock and long mileage of today's modern gasolines. And you get Anti-Rust protection, too, at no extra cost. For top performance, ask your Sinclair Dealer for Sinclair Anti-Rust Ethyl.

Only at Sinclair Dealers!

WHY RUST THREATENS YOUR CAR

Water forms daily in every car's gas tank due to moisture condensation (see diagram). This water rusts and corrodes fuel system parts when you use ordinary gasoline. Stop rust and corrosion with Sinclair Anti-Rust Gasoline.

Two Big 10 Cage Tutors Disciplined

Iowa's Bucky O'Connor
Can't Talk To Prospects

CHICAGO (AP)—In a disciplinary move disclosed Monday, the Big Ten has placed Iowa Basketball Coach Bucky O'Connor in a deep freeze by preventing his contact of any kind with prospective athletes for seven months.

K. L. Wilson, Big Ten commissioner, said O'Connor violated conference recruiting principles last April 2 when he attended a private luncheon in a Quincy, Ill., restaurant and talked with Brue Brothers, all-state prep cager, about the possibility of enrolling at Iowa.

Afterwards, Wilson said, O'Connor visited the boy's parents, Brothers, a 6-5 Quincy High center, now is starting with the freshman basketball team at the University of Illinois.

"The meetings were arranged by alumni in Quincy solely for O'Connor to meet and speak with Brothers about going to Iowa," said Wilson.

Wilson disclosed that similar disciplinary action has been taken against another Big Ten coach. The coach will not be identified unless his school makes the announcement such as Iowa did Monday on O'Connor.

Wilson said the action means that O'Connor must cancel all engagements at high school basketball banquets and must refuse other invitations at meetings where prep athletes are gathered. The action became effective Nov. 23 and will last until July 1, 1953.

At Champaign, Ill., Brothers refused to discuss the matter. He said he told all he knew to Big Ten officials during the investigation and that anything he said would have to come from conference headquarters.

Off-campus contacts by coaches are in violation of Big Ten recruiting principles. Appearing at public gatherings such as high school banquets has never been interpreted as a violation, although a coach is prohibited from using such appearances as a selling job. The great value in his appearance is in selling himself.

Regis Quint Raps Broncos, 81-67

Lincoln Star Special

HASTINGS — Regis College of Denver overcame an early Hastings lead to halt the Broncos, 81-67, here Monday night in the first of two scheduled meetings between the teams this month. Regis plays a return engagement Dec. 17.

The Broncos jumped to a 4-0 lead but the visitors knotted the count at 10-10 with 6:39 of the first half gone and went into a permanent lead at 7:15 as George Eckert's corner swisher made it 12-11, Regis.

Hastings felt steadily behind during the remainder of the contest, and only during the fourth period was able to meet the visitors on even terms. Eckert proved to be the big gun for the victors, meshing an even dozen fielders to round out a 26-point total.

Ron Zook had 21 to pace the Hastings cause. Bill Becher lent able assistance with 15 points.

Notre Dame Applies For Television Station Rights

CHICAGO (INS) — The application for a commercial television station has been made by the University of Notre Dame.

This was revealed at the Notre Dame Club of Chicago Sunday night by The Rev. Edward P. Joyce, CSC, executive vice president of the school.

He said that although the NCAA controls televising football games, Notre Dame will not take legal action even though he considers the rule violates anti-trust laws.

Rev. Joyce pointed out that instead, "We'll let public opinion and pressure apply. We can't sue the NCAA because we are a member."

At the same time it was revealed that Notre Dame may resume football relations with Army. Rev. Joyce announced that Head Coach Frank Leahy, Athletic Di-

rector Ed Krause of Notre Dame would meet with West Point Coach Earl Blaik in January to discuss the proposition.

In stressing the desire to secure the TV station, the Rev. Joyce pointed out that Notre Dame received some \$50,000 from the televising of the Oklahoma-Notre Dame game on Nov. 6.

He added that in 1950, when all Irish home games were telecast, the university spent more than that alone for films depicting educational features of the school.

Turning to the proposed resumption of football activities between Notre Dame and Army, he said that no game could be scheduled before 1957 because of prior commitments. Notre Dame and Army last met in 1947.

The suit charges that Mantle, at the persuasion of the ball club and Kaufman, broke a contract with the publicity agent.

Savitt said that he made a 10-year agreement with Mantle in April, 1951, to represent the ball player in radio and television appearances and in publication of magazine articles and books on the outfielder. He said his fee was 10 per cent of all payments made to Mickey.

The suit charged that last September Mantle breached the contract "by refusing to pay compensation for services."

Reached at his Commerce, Okla., home, Mantle said he had not been informed of the suit.

STORM LAKE (AP) — Buena Vista, using reserves all the second half, defeated Dana College of Blair, Neb., 63-42, in a non-conference basketball game Monday night.

Buena Vista moved to a 17-5 lead in the first quarter and increased the margin to 40-13 at halftime.

Barnston Flying Farmer Credited With 14 Coyotes

LINCOLN STAR SPECIAL

BARNSTON—If Frank Husa, flying farmer from north of Barnston, cared to follow the practice of fighter plane pilots, he could stencil 14 coyotes on the fuselage of his plane.

With Elton Mallicky of Barnston and Ted McPherson of Wynne, acting as "gunners," Husa is credited with killing 14 of the predators in the Barnston vicinity.

Lincoln Woman Tops Locals In State Doe Hunt

... Kills 103-Pounder

CHADRON (AP) — Gertrude Knudson of Lincoln was among forty-seven women who succeeded in bagging deer Monday, the opening day in the state's week-long season on does.

Her 103-pounder was also the largest doe killed by any of the five Lincolnites checking in deer Monday. Robert Townsend scored on a 102-pounder, and others included Sanford Downs (96 pounds), E. L. Martin (54 pounds) and Linton E. Drieser (58 pounds).

The State Game Commission listed a total of 151 successful hunters the first day, slightly over 15 per cent success on a basis of 1,000 licenses issued.

Proving that Monday was indeed "Ladies Day," two sisters, Edna and Grace Muhr, 50 and 64, respectively, each killed a doe. Their niece, Julia Muhr of Bridgeport, also brought down a doe that weighed 102 pounds.

The day's big one was brought down by a man, however.

Robert McConnell of Broadwater, hunting 15 miles south of Bridgeport station with a 141 1/2-pound doe, largest taken to date.

Hunting conditions throughout the open area were in fair contrast with those which greeted the buck hunters. The weather was comparatively mild and most roads were open. There was some snow reported falling at Harrison late Monday afternoon, however.

Bridgeport took the lead in deer checked, with 41 successful marksmen reporting. The other stations and deer checked were Crawford with 31; Harrisburg 26; Gering 27; Chadron 20 and Harrison 6. The doe season ends Sunday.

Late returns from the buck season skyrocketed the season kill to 1,073 deer representing more than 71 per cent of the 1,500 hunters. The success score is second only to the 72 per cent recorded in the 1945 hunt. The total kill far exceeds the previous high of 910 deer taken in 1949.

Most hunters report seeing ample does, some seeing as many as 38 and 40. No hunting infractions or accidents were reported.

Rarick Made Proposal To Suspend Officials

The proposal to allow the association to suspend officials for one year for failure to fulfill written contracts, which was passed by the delegate assembly of the Nebraska School Activities Association Friday, was made by Eugene Rarick of West Point instead of Leo Stangle of Scottsbluff.

The account of the delegate meeting in the Saturday morning Star erroneously reported that Stangle, athletic director at Scottsbluff, initiated the proposal.

The purpose of the new ruling is to curtail officials from contracting more than one game on the same date.

25-Year Football Epic To End

Slingin' Sam Will Quit After Sunday's Tilt

WASHINGTON (AP)—Sammy Baugh, possibly the greatest passer in football history, announced Monday he will retire as a Washington Redskin player after one more game.

Baugh will play against the Philadelphia Eagles Sunday then quit after 25 incredible years as a player.

This is his 16th year in the National Football League. That's longer than any other player ever lasted.

The announcement concerned only Baugh the player. Baugh also is an assistant coach. It wasn't clear whether Baugh would return to help coach next year or whether he would stay on his ranch near Rotan, Tex.

It has been obvious for some time that Baugh was nearing the end. He hurt a hand early in the season. Even after it got better, little Eddie LeBaron handled the passing for the Redskins. Baugh's only chore has been to hold the ball on tries for extra points and field goal.

As a pro, Baugh has gained more than 23,000 yards with his passes. That's more than 12 miles.

In 1937, 1940, 1943, 1945, 1947 and 1949, the official statistics made him the league's top passer. For variety, he also has been the league's top punter and its leading pass interceptor.

Born in Temple, Tex., in 1914, Baugh became nationally known as a passer at Texas Christian University.

Beaver Trapped

LINCOLN STAR SPECIAL

BARNSTON—The recently opened season on beaver in Nebraska has produced two of the animals near here. Otto Seidl of Barnston caught two, the largest weighing 51 pounds. Several dams have been built along Plum Creek.

ONE MAN'S OPINION

By Walter Kiernan

Holding of a chronic parking violator in a New York psycho-pathic ward will give one extra rush.

FEEL RELAXED!

But it is only a temporary solution and psychopathic wards would soon be as jammed as the parking spaces. . . Even with meters and "30 minute limit" signs.

This fellow who is getting laboratory tested had picked up 29 tickets in 24 months and hadn't settled for any of them. . . probably couldn't find a place to park between tickets.

The index said he hoped an examination would shed some light on the mental processes of the chronic parking violator but it might just show the need for wider streets.

Acheson U.N. Red Stand Called 'Shockingly Weak'

O'Connor Says Employment Letter 'Discouraging'

WASHINGTON (INS)—Sen. O'Connor (D-Md.) denounced Monday as "shockingly weak" a statement by Secretary of State Acheson against employment of U. S. Communists by the United Nations.

Acheson in a letter which O'Connor made public said "we have taken utmost care to impress administrative officials of the United Nations that employment of United States nationals who are Communists is not in the best interests of the United Nations."

O'Connor said Acheson's stand is "a shockingly weak protest" and "seems devoid of real alarm at the Communist threat." He added that it is "disappointing when read in the light of the State Department's action or lack of action to uncover subversive infiltration into international organizations."

'Awareness Absent'
O'Connor said that Acheson's letter, addressed to Sen. Wiley (R-Wis) and dated Oct. 12, is being made a part of the formal record of the Internal Security Subcommittee which will meet Tuesday its New York hearings on Communists in the U. N. O'Connor has been handling the hearings.

The senator said Acheson's letter "does not indicate an awareness of the present danger posed by the great number of subversives who have been allowed to occupy key positions where they could obtain confidential information."

Mayor Dismisses Parking Tickets Given City Workers

Anderson Meets Monday's City Council

Mayor Victor E. Anderson met Monday's City Council meeting that parking tickets issued to city employees are dismissed.

Anderson made the statement while defending his belief that city marked cars should be excused from routine parking regulations such as paying parking meters.

Such obedience of the rules, explained the mayor, results in inefficiency as it involves a lot of red tape in refunding a nickel to an employee who has used a parking meter while on city business.

'Inefficiency'
City employees who are excused from payment of parking tickets, he explained, because it would otherwise mean inefficiency. For example, he said, it would not be practical for an employee to leave what he was doing and walk five or six blocks to put a nickel in a parking meter and then return to his work when it perhaps would have taken that employee only five or ten minutes to finish up what he was doing.

"However," said Anderson, "there are not many cases in which tickets are dismissed. While there were two such cases last week, I know of only several during the past year."

The Council, however, failed to agree with the mayor that city employees should not be given tickets and should be relieved of minor traffic regulations. The Council took a similar stand several weeks ago.

Clara Poulson Photo First Prize Winner

A picture entitled "Wild Bill" by Clara Poulson took first prize in the advance class of the Wee Camera Club's annual salon competition Monday night.

Awarded a first in the amateur class was "Early Traveler" by Frank Logan. Second in amateur was "Snow Boy" by John Bishop, and second in advanced was "Debbie" by John Bundy. There were 16 entries in the show.

Action Deferred On Sidewalk Request

Action has been deferred for one week by the City Council on two applications for sidewalks along the west side of Winthrop Rd. between Van Dorn and South.

In one application, a walk is requested by some 60 signers from Van Dorn to Plymouth. The second application, bearing 79 signatures, asked for a walk from Sewell to 135 feet south of South.

Att. James N. Ackerman appeared before the Council in favor of the Van Dorn to Plymouth walk. He told the Council that no less than 50 children used Winthrop Rd. daily going to and from Sheridan School.

Att. Max Kier appeared in behalf of opponents to the Van Dorn to Plymouth walk. He submitted a petition with 25 names of persons who he said wanted their names withdrawn from the application for the walk.

New Mexico Convicts Give Up; 8 Guards Released

14 Inmates To Get Soft Punishment

SANTA FE, N.M. (AP)—Fourteen New Mexico State Prison convicts, their spur-of-the-moment escape attempt a failure, Monday surrendered and released unharmed eight guards they held as hostage for 20 hours.

Promised softened punishment, they capitulated abruptly to end what Gov. Edwin L. Mechem termed a major crisis.

Warden Morris Abram agreed to lighter punishment— isolation instead of confinement in the prison's underground dungeon — as "fair under the circumstances."

'Not A Riot'

"A lot of lives were in jeopardy," he said.

Abram said the action was not a riot.

"It was a spur-of-the-moment plan to escape. They saw their chance, so they took it."

They demanded a car be left for them at the gate to make a dash for freedom.

"I guess they figured they could get away somehow if they would get outside the walls," said Abram.

Probe Promised

End of the escape attempt came when the eight hostages — seized just after the prison's evening meal Sunday — walked unannounced out the front gate of the big gray prison on the outskirts of the city.

Minutes later, Warden Abram announced the trouble at an end.

Gov. Mechem promised a full investigation.

A secrecy lid was clamped on the riot from the beginning. Prison officials talked only at rare intervals, then not much.

The guards were well-treated and given food and coffee by their captors. They refused to discuss their experience.

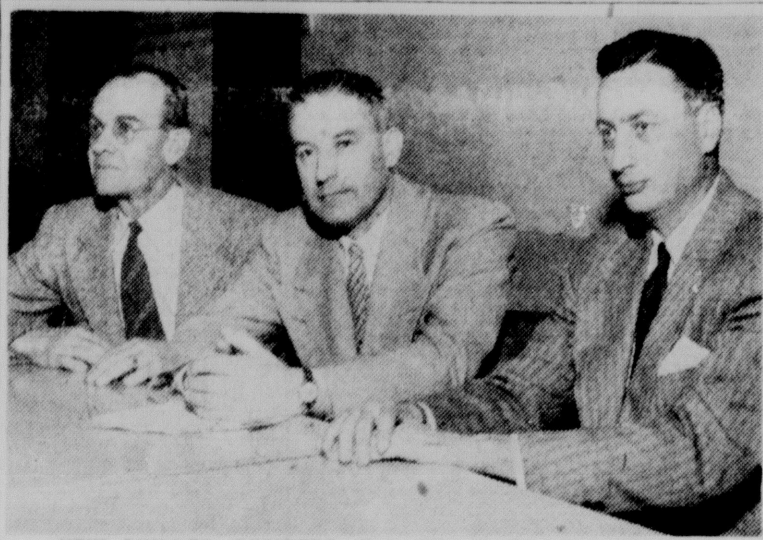

Snatch Knife

Trouble erupted in the ancient 650-inmate prison when the convicts snatched a knife from the prison kitchen, put it to the back of clerk Johnny Espinosa and forced him to open the gun vault.

The convicts broke into a steel box to get barrels to fit stocks stored separately.

With two shotguns and a rifle, they captured guards on duty in the prison yard, barricaded themselves in Cell Block No. 2 and shouted for Abram.

Talking with Abram through a porthole, they demanded a car for their escape through the prison gates.

NEW BUILDER OFFICERS—Karl Witt (center) has been named president of the Lincoln Home Builders. Vice president is Harold Evans (left). Don Dixon is secretary-treasurer. (Star Photo.)

Warren J. Lynch Dies In California

Word was received in Lincoln Monday of the death in Los Angeles of Warren J. Lynch, former Lincoln resident.

Mr. Lynch left Lincoln in the early 1920s. He had been president of the Farmers Investment Co., and was a member of Lincoln Lodge No. 19, AF & AM.

Masonic services and burial will be at Los Angeles.

Karl Witt Heads Home Builders

Karl Witt was elected president of the Lincoln Home Builders at the annual election of officers and directors Monday night. He succeeds Ervin E. Peterson, who has headed the group for the past two years.

Witt and the newly-elected officers and directors will take office Jan. 1, 1953. Also elected were Harold Evans, vice president, and Don Dixon, secretary-treasurer.

The new board of directors, elected by the group as a whole and who in turn named the new officers, are M. W. Anderson, Carl Dietrich, Robert Simpson and C. Kirkpatrick.

All but one of the directors, to be designated later, were elected to two-year terms.

Guest speaker was Ray Ramsey, city personnel director, who spoke on "The Optimistic Approach."

"The success of any undertaking," he told the Builders, "depends on the attitude at the outset and the determination that it become a successful project."

The group also heard a report on the Northside Improvement Association, a newly-found organization to promote better housing for minority groups, principally Negroes.

Presenting the report was George Randol, president, and Charles Ledwith, Association secretary-treasurer and counsel.

ADVERTISEMENTS

Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTTEETH on your plates. No gummy, goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTTEETH at any drug store.
